

honored by DOL. DOL intends to follow these principles in designating Native American grantees in Oklahoma for Program Years 1997 and 1998, to preserve continuity and prevent unnecessary fragmentation.

VIII. Designation Process Glossary

In order to ensure that all interested parties have the same understanding of the process, the following definitions are provided:

(1) *Indian or Native American-Controlled Organization.* This is defined as any organization with a governing board, more than 50 percent of whose members are Indians or Native Americans. Such an organization can be a tribal government, Native Alaskan or Native Hawaiian entity, consortium, or public or private nonprofit agency. For the purpose of hierarchy determinations, the governing board must have decision-making authority for the section 401 program.

(2) *Service Area.* This is defined as the geographic area described as States, counties, and/or reservations for which a designation is made. In some cases, it will also show the specific population to be served. The service area is defined by the Grant Officer in the formal designation letter. Grantees must ensure that all eligible population members have equitable access to employment and training services within the service area.

(3) *Community Support.* This is evidence of active participation and/or endorsement from Indian or Native American-controlled organizations within the geographic service area for which designation is requested.

While applicants are not precluded from submitting attestations of support from individuals, the business community, State and local government offices, and community organizations that are not Indian or Native American-controlled, they should be aware that such endorsements do not meet DOL's definitional criteria for community support.

Signed at Washington, DC, this 29th day of August, 1996.

Thomas M. Dowd,

Chief, Division of Indian and Native American Programs.

Paul A. Mayrand,

Director, Office of Special Targeted Programs.

James C. DeLuca,
